

FIREARMS REGISTRY

OFFICIAL

CHANGE OF PERSONAL DETAILS

All persons holding a firearms licence or permit in NSW must notify the Commissioner of Police, in writing or in such other manner as may be approved, within 14 days of any change of details which may affect their licence or permit.

Why is it important to notify a change in your details?

You have a legal obligation as a licence or permit holder to notify any change of details on your licence or permit as prescribed by the *Firearms Act 1996* (the Act) and the *Firearms Regulation 2017* (the Regulation). It is vitally important that the Firearms Registry has information on your current contact details so that any correspondence is sent to the correct address.

It is also a matter of public safety that operational police have current details on licence and permit holders, including safe storage locations for firearms.

NOTE: Change of details including change of address must be advised directly to the Firearms Registry to comply with your obligations under section 69 of the Act or clause 17 and 120 of the Regulation. Notifications to Service NSW / RMS do not update Firearms Registry records except at the time of completing your Online Firearm Licence Renewal.

How do I update my phone number, residential, postal and/or safe storage address?

You can update your phone number, residential, postal and/or firearm safe storage address via the [NSW Police Force Community Portal](#).

To update online, you will need the following:

- A MyServiceNSW Account
- Proof of identity documents (e.g. Driver licence and Birth Certificate) - the name of your proof of identity documents must be exactly the same as the name on your Service NSW account. Note: If you have previously completed this process and saved your identity documents, this step will not be required
- Your firearms licence number
- Details of your change of personal details (e.g. the full address details of your new safe storage address)

If your safe storage address requires inspection, police will contact you to arrange a time for the inspection.

Your safe storage facilities must meet the level of storage required by the Act for the type of firearms authorised by your firearms licence or permit and you must certify that those arrangements comply with the requirements of the Act and clause 17 of the Regulation. See fact sheets for Level 1 and Level 2 safe storage available on the [Safe Storage page](#) on the Firearms Registry website.

Section 42 of the Act authorises a police officer to seize firearms or ammunition which is not being kept in accordance with the safe storage requirements prescribed by the Act.

Where can I find more information?

The information provided in the fact sheet is for general guidance only. Applicants and licensees should familiarise themselves with the Firearms Act 1996 and the associated Regulation, which are available on the NSW Legislation website – www.legislation.nsw.gov.au
